Senior Exploration Management Course
23 - 26 June 2015
Perth, Australia
Western Mining Services (WMS) in conjunction with the Centre for Exploration Targeting (CET) will be presenting their 4-day training course for Senior Exploration Managers in 2015.

This four-day training course will run over the 23 - 26 of June, 2015 and tackles the principles and practices of effective exploration management. The curriculum covers the spectrum of mineral exploration technical and business issues that typically confront senior exploration managers.

**Participants will leave with a better understanding of:**

- Mineral exploration at the strategic scale – the roles of greenfields and brownfields exploration in development and implementation of corporate operating and growth strategies;
- Designing and managing exploration programs and portfolios;
- The importance of group structure, program design, process discipline and effective people management in achieving exploration group objectives;
- Opportunity generation including the exploration search space concept, targeting science and the application of targeting models; and
- How to conduct new opportunity due diligence, build and negotiate land and minerals access transactions, and manage non-technical risks to achieve enhanced project economics and maintain the necessary licenses to operate exploration projects in varied risk environments.

The course format utilises both lecture and workshop, and stresses interactive thinking and problem solving. Participants will work in teams to design solutions to exploration management challenges and will present their results to the larger group.

This course is ideal for regional and country exploration managers, for senior project managers and for geoscientists and commercial managers who are involved with management of mineral exploration programs, people and projects. The **cost** of the course is **$3600 per participant (GST included)** with a **10% discount for CET Members**. Participants should **bring** a laptop computer with Excel and PowerPoint capability. The **venue** is St Catherine’s J.E. Wood Room, 2 Park Road, Crawley WA 6009. The college is directly across from UWA Campus. Contact Cindi Dunjey for more information, cet-training@uwa.edu.au
COURSE PRESENTERS

Jon Hronsky Bart Suchomel, and Jeff Welborn.
All three are former senior managers at WMC Resources Ltd and have taught the components of this course many times before.
More information about the presenters is available on the WMS website www.wesminllc.com

JON HRONSKY (BAppSci, PhD, MAusIMM, FSEG)
Jon has more than 30 years of experience in the mineral exploration industry, primarily focused on project generation, technical innovation and exploration strategy development. Jon has particular expertise in gold and nickel sulfide deposits, but has worked across a diverse range of commodities. His work led to the discovery of the West Musgrave nickel sulfide province in Western Australia. Jon joined Western Mining Services in 2007 and has subsequently consulted to a wide range of major and junior mining companies. Before joining WMS Jon was Manager-Strategy & Generative Services for BHP Billiton Mineral Exploration, and prior to that, he was Global Geoscience Leader for WMC Resources Ltd. Jon was SEG Distinguished Lecturer in 2009.

BART SUCHOMEL (BA, M.Sc., RPG, FAusIMM, FSEG)
Bart has over 30 years of experience in mineral exploration, including 14 years in corporate senior management roles. He has extensive experience in exploration strategy development and business planning. Bart is a principal/partner of Western Mining Services and in this role he has provided assistance to numerous minerals companies in the areas of exploration strategy, planning, portfolio management and new project development. Prior to co-founding WMS, Bart was General Manager - Exploration for WMC Resources Ltd., responsible for WMC’s global exploration programs including near-mine brownfields exploration. He also held other senior management roles in WMC and led teams that discovered gold deposits in Chile and Brazil.

JEFF WELBORN (BA, JD)
Jeff has over 35 years of experience in the mineral exploration industry- over 25 years as a mineral lawyer, 8 years in corporate senior management roles in WMC Resources Ltd., and 6 years as a principal/partner of WMS. Jeff’s experience covers the range of commercial, legal and risk management matters that comprise the non-technical side of mineral exploration and mining. His focus is on commercial, legal and business risk management at the senior management level. Jeff works with mining and exploration companies on non-technical due diligence and risk management aspects of new exploration opportunities and jurisdictions. He also assists WMS clients with matters that involve commercial strategy, planning, deal analysis and negotiation and minerals/land access.
